

# AURORA

The image is a vertical composition. The top half is dominated by a vibrant, multi-colored nebula or galaxy, with hues of blue, purple, orange, and red, set against a dark background filled with numerous bright stars. The bottom half features a blue-toned, sketch-like portrait of a man's face, looking upwards. The portrait is rendered with dark, expressive lines and shading, giving it a textured, artistic appearance. The overall effect is a blend of natural cosmic beauty and human artistic expression.
