

Cine

¿Qué es el ARTE?

Resumo de Cine

In this Spanish-language title for kids, the children in this book visit a movie theater, then go into the projection room to discover how a movie projector works. They also learn about sound stages, where many movies are made, and they find out how to make a series of pictures that create the illusion of motion.

Vividly illustrated books for early-grades boys and girls, books in the What is Art? series introduce the arts and present the kind of instructive information that will make kids want to participate in the arts.

The books suggest activities that will help kids understand the arts by doing and performing. The text asks children simple questions, but there are no wrong answers. The questions simply help children recognize and understand their own artistic preferences and aptitudes.

Teachers will love these books as sources for classroom activities, and parents will also welcome them as a way to get kids started on art activities at home. Both English and Spanish editions of these titles are available.
