NOBROW

Resumo de Curveball

A stunning love story of futuristically epic proportions that juxtaposes mechanical breakdown against humanity's quiet tenderness. After years of technological advancement, the relationship between humans and robots is changing. Reduced energy stores mean humans can no longer rely on the support of their robotic counterparts.

In the midst of this turmoil, one woman faces her own breakdown at the hands of a manipulative friend. Jeremy Sorese explores how heartbreak can make us feel like the center of the universe and how the realization that we aren't is often more painful than the heartbreak itself. This is the gorgeous debut of a talented young cartoonist telling the most universal of tales: a love story. Jeremy Sorese was born in Berlin, raised in Virginia, and educated in Georgia at the Savannah College of Art and Design before becoming a resident of La Maison des Auteurs in Angoulême, France.

He is the creator and current writer of the Steven Universe comic series, published monthly by BOOM studios. He lives in Brooklyn, New York.
