

DR. DEUTÉRIO, O MODERADOR

Version for two
guitars or computer

Ernesto Pachito

Resumo de Dr. Deuterio, O Moderador: Version for Two Guitars or Computer

Version for computer music of a theme composed originally for two guitars, rythm and solo. The title is a metaphor where the chemical element Deuterium, used in nuclear reactors to moderate strong and very quick reactions, is in fact a man who works as peacemaker in social conflicts.

Enjoy the fiction ! No worries here about radioactivity! It's just humour !
