# Resumo de General English for Aviation. Pilots Cabin Crew Ground Staff and Air Traffic Controller

General English for Aviation is a new book aimed for false beginners to intermediate English language learners. The content of this book was thought to help learners to get started in the world of aviation while developing their listening and conversation skills to interact with people in real-situation communication.

This book also provides information for teachers on the topics that will be taught at the beginning of each Unit and a brief reference guide of the goals to be achieved by the students.
