Resumo de Mad Professor: Concoct Extremely Weird Science Projects--Robot Food, Saucer Slime, Martian Volcanoes, and More

For here, in strange and delectable detail, are dozens of hitherto secret experiments for concocting slimes and putties, inventing miniature robots and transport devices, growing crystal gardens, and many other useful creations-all crafted from widely available household products.

Warning: countertop volcanoes also included. Where did these wondrous projects originate? Apparently in a shadowy toy research laboratory that once operated out of a tiny island in the South Pacific.
