

A close-up photograph of the spines of several old, worn books. The spines are made of light brown leather or parchment, showing signs of age and damage. Some have faint, illegible markings or labels.

H. Desterne

Mémoire sur la découverte
du cathétérisme du tympan
(Éd. 1855)

A close-up photograph of the spines of several old, worn books, similar to the top image. The spines are made of light brown leather or parchment, showing signs of age and damage. Some have faint, illegible markings or labels.
