

SURVEYING

6th Edition

Jack McCormac • Wayne Sarasua • William Davis

Resumo de Surveying

McCormac's 6th edition of Surveying provides a basic overview to help readers understand and communicate with surveyors. New features include more applications in engineering areas such as environmental, transportation, geotechnical, construction; more applications to GIS and GPS; added coverage of Geomatics, including setting up data to do analysis and make decisions; and more examples and increase number of homework problems.
