

PENGUIN CLASSICS

CONFUCIUS

The Analects

Translated with an Introduction and Commentaries by ANNPING CHIN

Resumo de The Analects

One of the most influential books in human history, in a revelatory new translation The book that the Chinese have returned to repeatedly for reflection, renewal, and validation of their own views, "The Analects" was compiled by the disciples of Confucius, China s earliest teacher and moral thinker, from his remarks and his conversations with rulers, political operators, and people he happened to meet.

It laid the foundation of the Chinese idea of what is moral and what is politically viable, what is a good government and who has integrity. Featuring both the English and Chinese texts, this new translation, by one of the pre-eminent scholars of Confucius, draws on the most recent excavated manuscripts and centuries of scholarship to illuminate the historical context of Confucius teachings, explaining who the many local figures referenced are, and navigating a rich tradition of historical commentaries.

The result is a map of Confucian thought that brings us as close as possible to experiencing Confucius as his followers might have 2,500 years ago. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world.

With more than 1,700titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust theseries to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-datetranslations by award-winning translators."
