# Resumo de The Whole-Brain Child Workbook: Practical Exercises, Worksheets and Activities to Nurture Developing Minds

Based on their NY Times Best Selling book, *The Whole-Brain Child*, internationally acclaimed neuropsychiatrist Dan Siegel and brain-based parenting expert Tina Payne Bryson have created a workbook to apply Whole-Brain principles.

The *Whole-Brain Child Workbook* has a unique, interactive approach that allows readers not only to think more deeply about how the ideas fit their own parenting approach, but also develop specific and practical ways to implement the concepts -- and bring them to life for themselves and for their children.

Dozens of clear, practical and age specific exercises and activities. Applications for clinicians, parents, educators, grandparents and caregivers.
