

UNFORESEEN

LAUREN GRIMLEY

Resumo de Unforeseen

Alex was quite sure gifted was a term delusional parents applied to their strictly average children, vampires were gorgeous dead guys in her eighth-grade girls' novels, and Seers was a middle schooler's misspelling of a department store known for power tools.

Teachers, however, don't know everything-it's Alex's turn to be educated. Running alone the night before school ends, Alex is violently attacked. Regaining consciousness, she finds herself in the home of the Rectinatti Regan, the leader of one of two covens of vampires battling nightly on the streets of her city.

If that discovery wasn't enough to make her think she'd gone insane, she realizes she's sensing the emotions of another of the vampires as strongly as she feels her own.

Discovering these creatures have the answers to what she is and why she was attacked, she decides she wants to stay, despite knowing it is a dangerous, possibly deadly desire.
