

8 SIMPLE MACHINES 8

wedges

The image shows two large, triangular metal wedges resting on a rough, grey stone surface. The wedges are heavily rusted, with a mix of brown, orange, and grey tones. The wedge on the left is lighter in color, while the one on the right is darker and more heavily corroded. Both have a flat, rectangular base and a sharp, pointed apex. The background is a solid orange color at the top, transitioning into the stone surface.
